Philox PRNG

It's a built-in generator in *numpy* library

- ## INPUT

  program takes the output file and the amount of numbers that should be generated (default = 100)

- ## USAGE

  used libraries: *numpy, numpy.random, argparse, pickle, time*

  ```
  python  z4_philox_prng.py --output-file "generated_numbers.pkl" --n
  1000

  python  z4_philox_prng.py --output-file "" --n 10
  ```

- ## OUTPUT

  program returns n generated numbers by Philox PRNG to the output file
